

Service is the Burning Issue!

In our ongoing dedication to provide you with the equipment and services you need for maximum performance, we recently upgraded our equipment repair facility. Maryland Fire offers hose coupling and repair, nozzle repair and airbag testing services that feature:

STATE-OF-THE-ART TECHNOLOGY

Equipped with the most advanced hydraulic expander from Red Head Brass, Inc., every attachment is snug, uniform, and secure.

CONVENIENT ACCESS TO OUR SERVICES

We can pick up and deliver your equipment, you can drop it off at our location, or ship it directly to us.

FAST TURNAROUND

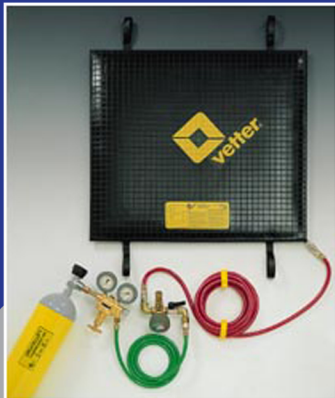

Most repair services can be completed within five days.

GREATER VALUE

Compare our rates and quick response time with the competition, and you'll find that we deliver greater value along with your like-new equipment.

FLEXIBLE HOSE SIZES

We are able to couple hose sizes from booster to 5 inches.

Maryland Fire Equipment is committed to our customers and has established ourselves as a leader in providing quality customer service. Maryland Fire provides manufacturer certified service for a variety of products. We work closely with the product manufacturer in order to service and repair your equipment to manufacturing standards.
